

BEHAVIORAL HEALTH SERVICES

Our vision is for every child to have a safe, stable, and nurturing home.

Practicum/Internship experience includes:

- Outpatient individual, family, dyadic, and group therapy
 - Caseload of 6-10 clients, a group, and referral line
 - Intake, open/closing measures, treatment planning, progress notes, and occasionally attend IEP, CFT, or other collateral meetings
- Providing services in office, client's school or home, and via telehealth
- Our clients are primarily children under 17yr, but there are some opportunities for adult individual clients or groups
- Opportunity to learn trauma focused and attachment-based treatment modalities, such as Trauma Focused-CBT and Parent Child Interaction Therapy
- Individual & group supervision and peer case consultation
- Gain extensive knowledge of community resources
- Opportunity to work with various cultures and clinical populations
- Flexible schedules and mileage reimbursement
